# TRADOC G2 Newsletter

Volume 1, Issue 4

December 2020

## Hot off the Press

[OE Watch \(November '20\)](#) - This edition contains 59 foreign articles spanning over 30 different regions and countries covering OE topics from the foreign perspective.

[OE Watch \(October '20\)](#) - This edition contains 56 foreign perspective articles to assist leader development, training, education, governmental, and analytic communities.

## Recommended Readings / Videos

TRADOC G2 produced a video ICW MCoE TPO IBCT depicting how a BDE will fight MDO in 2028. ([MilSuite](#) or [YouTube](#))

Two videos were unveiled at the October AUSA Conference.

1. The first is from TRADOC G2 and provides a quick overview of the [NDS 2+3 Threats in the Current OE](#).

2. The second is from Army Futures Command (AFC) and depicts the challenges of the [Future OE Threats](#).

## DATE / ATPs / OE Updates

[DATE Pacific Update](#) - One Page Infographic summarizing the updates across the PMESII-PT Framework (totaling over 500 pages of OE content with over 250 sub-variable topics per country.

[DATE Users Conference](#) - TRADOC G2 will host to first virtual DATE Users Conference on 12-14 January 2021 on MS Teams. This event is intended to enhance integration and coordination between developers of the training OE, scenario developers, and end users.

## Training & OPFOR Updates

[Threat Tactics Course](#) (TTC) - TRADOC G2 launched Phase 1 of our previously only resident TTC, available through JKO (click on Course Catalog, search "OPFOR" in the "Name" search box). The 8-hour TTC examines the **WHY** in tactical decisions, and is recommended for all leaders in tactical formations who want to improve their understanding and decision making on how best to employ U.S force capabilities and ways to counter threat tactics. Once complete students are eligible for phase 2 which is instructor delivered via remote or in-person MTT.

[Information Operations Network \(ION\) 2.0](#) - TRADOC G2 is now offering a bi-weekly ION 2.0 Training Seminar conducted over MS Teams. This is in preparation of the release of ION 2.0 at the start of 2021. The 2-hour block of instruction covers the Exercise Participants and Administrative capabilities of ION 2.0.

[Exercise Support Application](#) - TRADOC G2 consolidated previously cataloged exercises into the Exercise Support Application (ESA) for future use. There are over 50 exercises and 200 significant role player biographies that were relocated from EDT to ESA and are ready for use.

## Mad Scientist

Explore the Operational Environment in [Four Models of the Post-COVID World](#) (now through 2028) and [The Future Operational Environment: The Four Worlds of 2035-2050](#).

Check out the content from our recent [Robotics & Autonomy Series of Virtual Events](#) and watch the associated [videos](#) (using a non-DoD network).
